# ETHICAL

At Premier we aim to achieve the highest ethical and environmental standards and we only like to work with manufacturers that do the same. To make sure our credentials are impeccable we have a detailed code of conduct that's integral to the way we do business and all our suppliers and their sources must sign up to it. It's based on the very best employment ethics, health and safety practices and environmental considerations. So when you purchase any of our goods you can be sure that they have been produced lawfully, through fair and honest dealing, in decent working conditions and without exploiting the people who made them. Any environmental impact during production and transportation has also been kept to a minimum.

Premier also has the right to run audits and spot checks, personally or via external parties, on our suppliers' premises without their prior knowledge to verify that they are behaving in an appropriate manner and upholding our values. Just one more way that you can trust us to make a difference to people and the planet.

All our factories are WRAP or BCIS approved.
