

# REGATTA FABRIC RANGE

Our clothing is tested to the limits. Waterproofs come guaranteed as standard. Garments are washed, flexed 9000 times, zipped and unzipped. Our quality manufacturing is British BS, European EN and International ISO standard assured. We work hard at making our clothes work harder.

## Your Performance Guarantee

We will, without reservation, replace this product, entirely free of charge if returned due to a manufacturing or fabric fault, within a period of 2 years for Hydrafort 5000 and 3 years for Isotex from the date of purchase.

- This excludes snaps, damage caused by misuse, abnormal wear & tear, accidents, alterations, embroidery or embellishment.
- This guarantee applies only to the original purchaser and does not affect your statutory rights.
- In the unlikely event of a problem please return this product together with proof of purchase to your supplier.

To register your guarantee, please enter your details on our website at [regattaprofessional.com](http://regattaprofessional.com)

**ISOLITE**  
Waterproof Breathable

Isolite is Regatta's waterproof and breathable lightweight fabric to keep you dry and comfortable outdoors.

**HYDRAFORT**

Hydrafort fabric is both waterproof and windproof, providing reliable protection from the elements in the outdoors.

**HYDRAFORT**  
5000

Hydrafort 5000 is waterproof and windproof; with a hydrostatic head of 5000 it provides reliable protection from the elements in the great outdoors.

**ISOTEX**  
10000 STRETCH

Waterproof hydrostatic head of 10000mm.

- Hydrophilic breathable system allows inner moisture vapour to escape
- Active fit stretch yarns for greater comfort and movement

**ISOTEX** Waterproof Breathable **ISOTEX** 5000

Isotex fabric is waterproof, breathable and windproof to keep you dry and comfortable outdoors.

- Waterproof performance, to keep water out
- Hydrophilic breathable system allows inner moisture vapour to escape
- Durable Water Repellent outer fabric treatment to help water run off
- Windproof performance to eliminate windchill
- Isotex 5000 - Waterproof hydrostatic head of 5000mm

**THERMO**  
GUARD

Thermo-Guard insulation is made up of advanced synthetic fibres, which trap air to help keep you warm in cold or snowy conditions. Thermo-Guard is:

- Soft and light, yet incredibly warm
- High loft giving excellent insulation
- Quick drying and easy to care for

**SYMMETRY**  
ANTI-PILL · QUICK DRYING · SUPER SOFT

Symmetry fabric is both comfortable and practical to wear, making it the ideal choice for a wide range of outdoor and lifestyle uses.

- Anti-pill finish for lasting style
- Quick drying and easy to care for
- Super soft feel for extra comfort

(Advanced Durable Water Repellency Layer) A Regatta branded treatment that ensures enhanced water repellency and stain resistance.

- Enhanced water repellency – rain water rolls off the surface of the garment
- Stain resistant – spills and dirt wipe away more easily
- Improved durability to the washing process
- DWR stops the jacket from soaking in the rain or 'wetting out', which can make the jacket cold, heavy and uncomfortable to wear
- Though durable, these treatments are not permanent and can be reapplied with a reproofers

## SOFTSHELL

STRETCH • LIGHT

Lightweight knit construction Softshell with stretch for ease of movement

- Durable Water Repellent outer fabric treatment to help water run off
- Quick drying for protection from wind chill
- Fleece back for comfort and warmth

## SOFTSHELL

Regatta Softshell garments are a new approach to traditional layering systems.

- Lightweight – easy to wear or carry
- Water repellent and wind resistant
- Knitted fleece fabric back for added warmth and comfort

## SOFTSHELL

XPT

Regatta Softshell garments are a new approach to traditional layering systems.

- Water repellent and wind resistant membrane
- Breathable
- Lightweight for ease of movement

## EXTOL

STRETCH

Regatta's pinnacle stretch fabric technology is ideal for a wide range of high energy outdoor activities.

## THERMAL

BALANCE PLUS

Thermal Balance Plus fleece provides outstanding warmth to weight and comfort, making it the ideal layering garment for a range of outdoor uses.

## LAYERlite

### FLEECE

Regatta Layerlite fleece provides an alternative approach to standard layering systems.

- Lighter weight
- Quick drying
- Easy Care
- Comfort layering
- Good Wicking Performance

## WARMLOFT

Warmloft is made up of small synthetic ball fibres. These free-flowing micro insulation ball fibres create and trap pockets of warm air, providing outstanding warmth and comfort.

- Soft and light, yet incredibly warm
- Easily compressed to pack away
- Quick drying and easy to care for

Regatta Coolweave fabrics are made from 100% cotton. Ideal for relaxation and fun in the great outdoors, Coolweave cotton is:

- Cool to wear – Airflow construction promotes cooling. Cotton draws heat away from your skin
- Soft and comfortable when worn next to the skin
- Smart and stylish in appearance – great for travelling, holidays and weekend wear

Coolweave hybrid fabrics contain a high percentage of cotton fibres ideal for the great outdoors.

- Cotton fibres give a natural cooling effect next to the skin
- Washed for softness and comfort

## SYMBOLS

Outer jackets or fleece that have zip-together compatibility with identified interactive Regatta products and certain other brands.

Products pack away into pocket or bag for ease of carrying.

Indicates 3-in-1 product with midlayer included.

Indicates new product.

2. Black 800

Orange colourway text indicates New colour for run-on style

Thinsulate lined product.

Water repellent.

# REGATTA MEASURING GUIDE

## REGATTA MEASURING GUIDE

The fit of your clothes depends on the cut/style and design of your garment. Our garments will vary in actual size as we allow for ease of fabric over the body. Measure your body accurately to determine what size clothes you would be best buying.

### MEN'S

**A = Chest**

Measure the chest at the fullest part placing the tape under the arms.

**B = Waist**

Measure around the waist at the height at which you would normally wear your trousers.

**C = Inside Leg**

Measure from the crotch to where your trouser leg is normally worn at the ankle.

### WOMEN'S

**A = Bust**

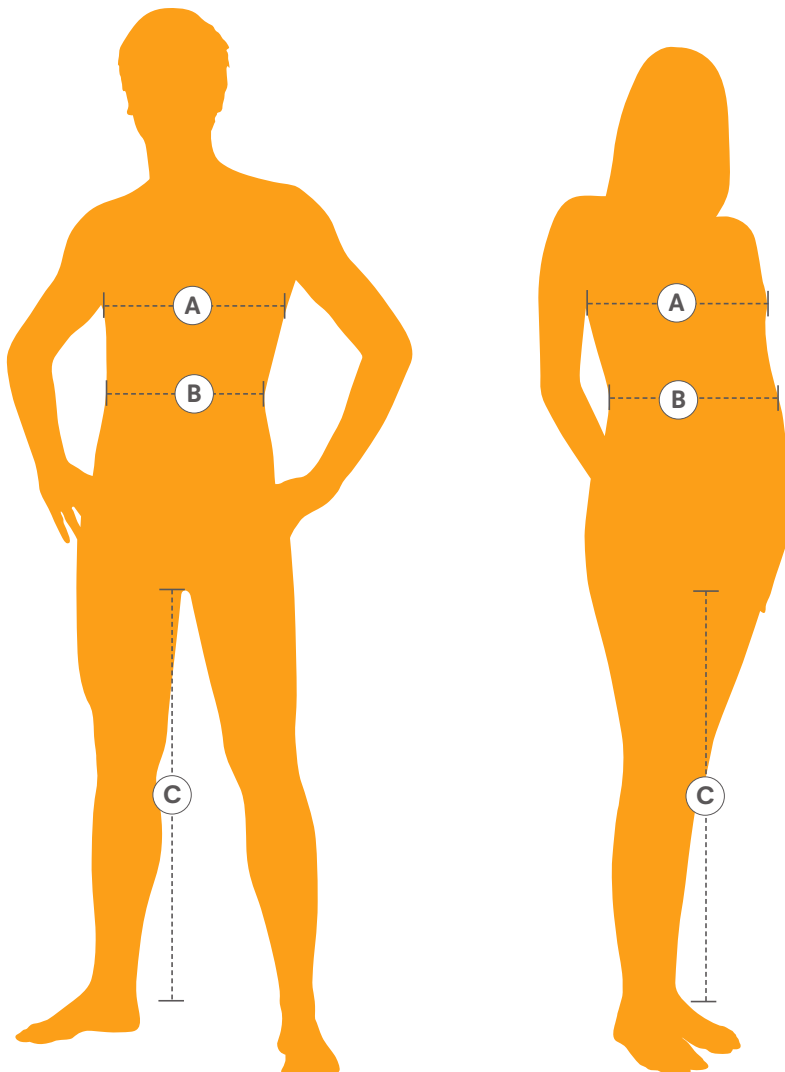

Measure around the fullest part of your bust.

**B = Waist**

Measure around the waist at the height at which you would normally wear your trousers.

**C = Inside Leg**

Measure from the crotch to where your trouser leg is normally worn at the ankle.

# REGATTA MEASURING GUIDE

## REGATTA KIDS GENERAL SIZING GUIDELINES

Our children's clothes are designed to allow room for growth. Sometimes the height measurement is a better guide than the age in choosing the correct size for your child.

### KID'S

#### A = Height

Measure from a level floor to the top of the head.

#### B = Chest

Measure the chest at the fullest part placing the tape under the arms.

#### C = Waist

Measure around the waist at the height at which you would normally wear your trousers.

### INFANTS

#### A = Height

Measure from a level floor to the top of the head.

#### Kids Unisex Size Chart - Jackets

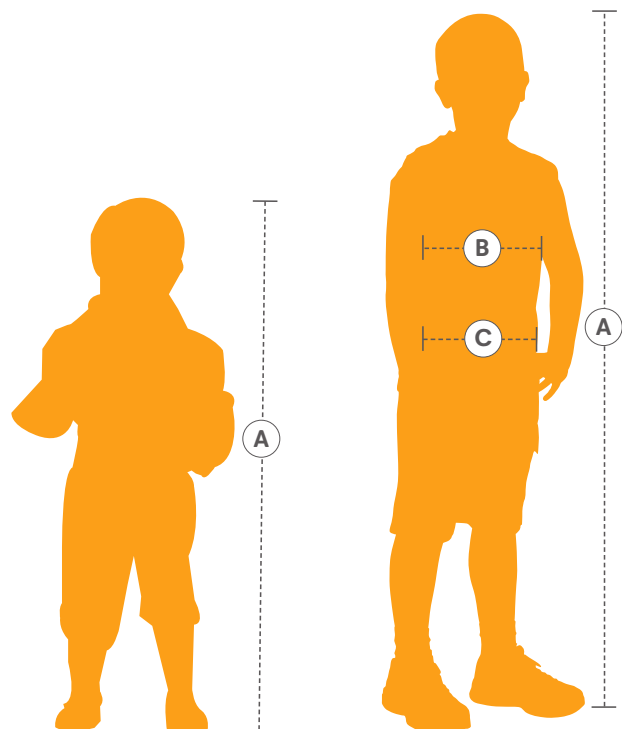

Age/Years	Height	Chest	European Conversion
2	92-98cm	53-55cm	98

# BRANDING

To enable you to display your branding or corporate messages in a workplace or promotional environment, all Regatta products can be either embroidered or printed on.

## EMBROIDERY

The majority of the Regatta range can easily be embroidered and has been designed to allow access for embroiderers where internal linings would be prohibitive.

Embroidering waterproof jackets will lead to a reduction in the level of water-resistance. The puncturing of the fabric leads to the potential for water ingress around the embroidery area. The remaining area of the jacket will retain its waterproofness as before embroidery.

## PRINT

Most Regatta products can be successfully printed without any reduction in the quality and performance of the garment.

NB: Regatta always recommend contacting your garment decorator as they will have information and advice on the optimal decoration technique.

## PRINT AND EMBROIDERY LOCATIONS

Regatta clothing can be printed and embroidered in a variety of locations. The most popular are detailed below.

**Right breast (as worn)** - ideal as a secondary place for decoration, this is usually used for a sponsor logo or area for additional information.

**Left breast (as worn)** - the most traditional decoration location, the left breast is ideal for club crest or business logo.

**Rear** - Where a larger area is required for a more impacting message, the rear of the garment can be used. Be it across the shoulders or down near the hem, this is a great way to make a statement.

**Right and left sleeves** - For small scale labelling, the sleeves offer an added opportunity to brand a garment. They also ensure the messages can be seen from the side as well as the front.
